Group Contribution Document

Marcus Darrell (Student ID: 750035845)

- Wrote intro for Written report
- Research and devised basis for Dynamic programming algorithms
- Wrote brute force section of Algorithms section in Written report
- Wrote design and approach section for Written report

Ollie Pearce (Student ID: 750011906)

- Designed and implemented file interpreter
- and implemented brute force algorithm
- Designed and implemented dynamic programming algorithm
- Wrote Dynamic programming section of algorithms section of the written report

Trystan Keigher (Student ID: 750033026)

- Wrote Brute force and dynamic programming ReadME's
- Formatted output of tests

Aiden Taylor (Student ID: 750017714)

- Wrote pseudocode for brute force algorithm
- Designed and implemented greedy hueristic algorithm
- Wrote Greedy hueristic comparison in Extension section in written document

Nehal Tumia (Student ID: 750095600)

- Wrote and designed presentation
- Graphs and written section for Extension 2: Advanced time series analysis
